Professional Biography

Terry Rowley has over 20 years experience in safety and health. His experience includes safety positions with several major manufacturers in the aerospace industry, an automotive and off road equipment components manufacturer, and the State of Connecticut. Terry is a Lean Six Sigma Green Belt and experienced with 5S and lean manufacturing organizations. In addition, Terry has developed and conducted numerous training programs, including ergonomics for both office and shop floor environments.

Terry's technical and management safety experience includes:

- ❑ Program development
- ❑ Training development and delivery
- ❑ Manufacturing
- ❑ Public sector safety
- ❑ Ergonomics
- ❑ Lean manufacturing
- ❑ OSHA general industry compliance
- ❑ Inspections and audits
- ❑ Industrial hygiene measuring and monitoring

Terry holds a master's degree in occupational safety and health management-industrial hygiene and a bachelor's degree in justice and law administration. He is a member of both the American Society of Safety Engineers and the Connecticut Safety Society.
